## Hybrid Data Protection for Small & Medium Business

Retrospect Backup & Recovery makes it easy to build a complete and secure data protection plan for your business. Offering powerful automated onsite, offsite and cloud backup options, you can easily set a plan to protect your data on-site for quick and easy access, and offsite for archiving and added security against location-based disasters.

### Save Money and Resources

- Save time and backup space by eliminating the need for full backups with Retrospect's **Smart Incremental technology**.
- Get faster smaller backups of very large files with **Block Level Incremental Backups**.
- Make sure you always have space to back up to with **Automatic Disk Grooming**.
- Stop needlessly backing up duplicate files and save time and storage space with **file-level deduplication**.
- Save on management time and travel costs with **Centralized remote management** of multiple Retrospect servers and workstations.
- **Manage backups on-the-go** with free iPhone/ iPad app.

### Get Powerful, Flexible and Reliable Protection

- Keep your entire network of Mac, Windows, and Linux environments protected at a low cost with a **single cross-platform Retrospect product**.
- Choose the backup target that works best for you with **support for cloud, disk, NAS, and tape**.
- Get faster process review with Retrospect's **High-Level Dashboard**.
- Go back to files dated prior to a corruption or virus with **flawless point-in-time restores**.

### Get Security and Peace of Mind

- Know that Retrospect's **multiple levels of encryption** will keep data secure, even if a backup is lost or stolen.
- Learn at a glance that your backup was successful with **Email Reporting**.
- Get even more security with Retrospect's automatic **maintenance of multiple, independent backup sets**.
- Ensure protection of computers that are new to a network or not always connected with automatic **client detection and login**.

“ It has practically saved our business. We have had quite a few file restores over the years...  
...The fact that we have the option to perform either a complete restore on our operating system or just for a single file, coupled with the bonus that we can also transfer data to a new / different hardware has been priceless, absolutely priceless! ”
