

# Retrospect®

## Backup & Recovery Software

## Trusted Data Protection For Over 25 Years

Retrospect backup and recovery software delivers a turnkey solution to protect critical data on servers, and Windows, Macintosh, and Linux desktop and laptop computers from computer and hard drive failure, accidental deletion, user error, theft, fire, flood, earthquakes, and other natural and/or unnatural disasters.

### What's cool & new about Retrospect?

- Incredible value- just one copy of Retrospect for Mac or Windows protects data from Mac, Windows and Linux computers 📦 🍏
- Headache free. Precise restores give you the exact data from any backup point in time selected- won't return renamed, deleted, or moved files 📦 🍏
- Never worry about off-line computers- proactive data protection recognizes and prioritizes data from off-line or new laptops/desktop computers as soon as they log on to the network, and immediately protects it 📦 🍏
- Save time and money with iPhone, iPad, or iPod management of backups and restores over Wi-Fi or 3/4G 📦 🍏
- **NEW!** Securely and easily back up offsite to the cloud, tape or portable hard drives 📦 🍏
- Saves resources by copying duplicate files only one time across multiple computers with file level deduplication 📦 🍏
- **NEW!** Free your IT department to focus on more critical tasks with powerful new client that allows end-user backup and restore on demand 📦 🍏
- **IMPROVED!** Protects VMWare virtual environments 📦
- Manage data more easily with built-in strategies for Data Archiving, Data Duplication, and Disaster Recovery 📦 🍏
- Best value and easy to deploy with one license that covers your entire network 📦 🍏
- **NEW!** FAST, FAST, FAST, at least 50% faster backing up and restoring data. Protect more computers with less down time when restoring 📦 🍏
- **NEW!** Fully supports Windows 8 and Mac 10 "Mountain Lion" OS 📦 🍏
- **NEW!** Restore to entirely different Windows hardware with the dissimilar Hardware add-on 📦

**And much, much more!** Join one of our trainings and find out- enroll at [www.retrospect.com/partners/training](http://www.retrospect.com/partners/training).
