

# Retrospect for Mac and Win Sell Sheet

Retrospect Backup & Recovery makes it easy for Small Businesses to build a complete and secure hybrid data protection plan.

## ? What does Retrospect do?

- Automated backup and recovery, duplication, and archiving.
- Protects networked Mac, Windows and Linux servers, desktops, and laptops.
- Backup on site to any storage device and offsite to certified global, regional, and private clouds.

## ? Why is Retrospect the best solution?

- Easy to set up and manage.
- Hybrid solution protects both on- and off-site.
- Mac and Windows versions available, with cross-platform client support included.
- One license covers network (as opposed to per-node).
- Built in deduplication (file-level).
- Auto-protect laptops as they come in and out of the network.
- Incremental backups save time and storage space while delivering 100% accurate full point in time restores.
- Powerful reporting keeps you up to date on the status of your backups.
- Monitoring tool integration including Nagios and Slack
- Free trial and 90-day money back guarantee make purchasing risk-free.
- Best value/ award winning support.
- Trusted data protection for over 25 years.

## Retrospect Base Products

### Multi Server

Protects any number of networked Windows, Mac, and Linux servers, desktops, and notebooks from a single host machine.

### Single Server Unlimited

Protects one server and any number of networked Windows, Mac, and Linux desktops and notebooks from a single host machine.

### Single Server 20 (Mac only)

Protects one server and up to 20 networked Windows, Mac, and Linux desktops and notebooks from a single host machine.

### Single Server (Disk to Disk) 5 (Windows only)

Protects a single Windows Server and five workstations from a single host machine.

### MS (SBS) Essentials with Exchange, SQL, Open File Backup and Dissimilar Hardware Restore (Windows only)

Protects a single Windows Server running Windows Server 2012 Essentials plus unlimited desktop and laptop workstations from a single host machine. Includes protection for Microsoft Exchange and Microsoft SQL, Open File Backup, and Dissimilar Hardware Restore.

### Desktop

Protects a single non-server host computer and up to five additional Windows, Mac, and Linux desktops and notebooks.

## Retrospect Add-on Products

### Microsoft Exchange Server Agent (Windows only)

Provides hot backups of Microsoft Exchange Server 2016 (database only), 2013, 2010, 2007, and 2003.

### Open File Backup Unlimited and Disk-to-Disk

Protects open files on NTFS-formatted volumes on Windows servers, desktops, and laptops.

### Dissimilar Hardware Restore Unlimited and Disk-to-Disk (Windows only)

Makes it possible to recover an entire boot volume or Windows Server—including the OS, applications, registry, and data—to a different physical computer.

### Microsoft SQL Server Agent (Windows only)

Provides hot backups of Microsoft SQL Server 2014, 2012, 2008, and 2005.

### Advanced Tape Support

Improves backup times by utilizing multiple tape drives in parallel, including multiple stand-alone drives, drives in libraries, or drives in autoloaders.

### Retrospect Client Packs and Server Client Packs

Extends the number of networked desktops and notebook computers (Client Packs) or networked servers (Server Client Packs) that can be backed up.

### Annual Support and Maintenance

Protect your customers' initial investment with our Annual Support and Maintenance. Available for all products, your customers can benefit from 12 months of free support and yearly free upgrades including version changes.

1 Management Console, 1 Host Server, 5 VMware Guest Addons

### SMB Bundle 5 VMWare VMs

1 Host Server, 5 VMware Guest Addons

### SMB Bundle 5 HyperV VMs + Console

1 Management Console, 1 Host Server, 5 Hyper-V Guest Addons

### SMB Bundle 5 HyperV VMs

1 Host Server, 5 Hyper-V Guest Addons

## Licensing Steps

**1. Retrospect Virtual Management Console:** License your own or connect to your service provider's Management Console.

**2. Retrospect Virtual Host Server:** License your host server for VMware or Hyper-V.

**3. Retrospect Virtual Addons:** Protect your virtual environment per socket or per guest, depending on your configuration.

## Service Providers

License your customers' virtual environments directly from your Retrospect Virtual Management Console to stay in control and sell global, regional, or private cloud storage as a backup destination.
